"FRECKLES" PARTY BEGINS TO GROW

Republican Newsies Will Be Out in Force Tonight.

This is the night when "Freckles" Wooten of The Republic newsboys' force will act as host of the newsies of this paper in a grand theatre party to "Freckles" at the Elks theatre. Of course, "Mr." Wooten is being assisted in the giving of this party through the generosity of Manager Stoermer of the "Freckles" company, Manager A. H. Reeves, of the Elks theatre, and The Republic, and it isn't going to cost anybody a penny.

That's the best of this party. It's strictly a newsies' party. There may be forty or fifty of the boys who deliver or sell Republicans every day in the year assembled in the big theatre to witness the pretty play that has been made from the dramatization of the Gene Stratton-Porter novel. Yesterday badges were distributed to the various newsies, with the instruction that they are to wear them until the last minute before the curtain goes up. Manager Reeves is built with a heart as big as all out-of-doors and he is just as ready to do what he can for the little fellows as any other man on earth. It is going to be a treat that the newsies won't forget very soon. And the boys are all saying "Here's to Freckles."

The plant of the Avery Manufacturing Co., of Peoria, Ill., was delivered the loss being estimated at \$250,000.

COMPLETED PLANS FOR STATE'S STORY

History of Arizona to Be Presented in Three Volumes.

The S. J. Clarke Publishing company of Chicago, on account of the illness of Miss Shariot M. Hall, who had arranged with the publishers for the bringing out of a three volume history of Arizona, from 1540 A. D. to the present time, have made an arrangement with Col. James H. McClintock to act as supervising editor and in an advisory capacity to Mr. W. L. Kershaw in the preparation of the history, for which the data gathered by Miss Hall during the last twenty years will be available.

Mr. Kershaw is a Chicago newspaperman of high repute and has had extensive experience in the handling of historical matter. There are few Arizonans who have made such a close study of old Arizona as Col. McClintock, or whose information concerning it is so accurate. For the last thirty years, too, he has been in the midst of things, so that accuracy and the completeness of the work may be assured.

The publishers, with a staff of writers, will do their best to bring out a work creditable to themselves and gratifying to the people of the state.

BOXING COMMISSION GETS VAGUE ANSWER

Asks Attorney General About Its Powers and Is Quoted the Law.

[ASSOCIATED PRESS DISPATCH] ALBANY, Feb. 17.—The New York State Athletic commission has the exclusive power to regulate boxing matches, including the adoption of rules to regulate the sale of tickets, according to the opinion given today by Attorney General Carmody. The commission questioned the attorney general concerning its jurisdiction to entertain a complaint against the Empire Athletic club of New York in the proceedings to revoke the club's license on the ground that it sold tickets in excess of the seating capacity of the club house, and as to whether the commission is authorized by the prescribed rules to limit the number of tickets to be sold to boxing matches.

Attorney General Carmody says the legislature intended to confer upon the state athletic commission plenary powers for the regulation of boxing matches.

RENNARD INQUEST—"Death from a gunshot wound self-inflicted" was the verdict of the coroner's jury yesterday concluding the inquest into the death of Joseph R. Rennard, who committed suicide by shooting himself through the head some time Sunday.

J. M. Eike, a G. A. R. comrade, told of conversations he had had with Rennard, in which it seemed that he was opposed to returning to the National Soldiers' Home at Sactelo, Cal. On Saturday Rennard told Eike he felt sure that he would hardly live through the night, although he was apparently in his usual health.

HEARING ON MEDICAL BILL

House Committee on Public Health and Statistics Hears Objections of the Christian Scientists to the House Bill 18

The senate chamber yesterday morning presented a great deal different appearance from the same chamber in the afternoon. There was a quiet time on hand during the morning, for the Christian Scientists were arrayed with soft spoken words against the medical bill introduced into the house some time ago by Lynch of Graham by request. The bill provides for the organization of a medical board composed of two allopaths, one homeopathic, one osteopathic, and one eclectic physician, who shall from time to time as a medical board adopt such rules as to enable it to carry into effect the provisions of the act. It is planned to shut out from the practice of medicine or the art of healing all who cannot conform to their rulings of the board, and is aimed to provide for a stringent enforcement of the orders of the medical board with regard to contagious and infectious diseases, and to provide for the punishment of any who attempt to set up a practice of healing by any means whatsoever without the provisions of the act.

At the last session of the legislature, through the activities of the Christian Scientists the bill failed of passage, largely because of an amendment inserted by the efforts of the scientists, which according to the strict protagonists of the medical idea, vitiated the bill. This year the Scientists seek to have the bill passed if at all, with an amendment satisfactory to them.

Chairman Whipple of the house committee presided over the session, and the opening argument against the bill was made by George J. Stoneman of this city, former president of the Arizona Bar association. Mr. Stoneman said there was no popular demand for any such drastic legislation, and that the demand for it came from the medical men of the state.

Judge Stoneman was followed by W. R. Mattox of Boston, a member of the Christian Science church in that city, who stated that contrary to the general belief the Christian Scientists were not dilatory in reporting the presence of infectious and contagious diseases to the properly constituted health authorities, and had no quarrel with the doctors. All they asked was to be let alone in the practice of the faith and belief, and he believed they should be. There were others present who are in favor of the changes proposed in the proposed measure among them being Allen Jaynes, clerk of the United States court, Judge E. W. Wells of Prescott, Bruce Perley of Bisbee, and G. W. Cate, president of the local Christian Science church. There were no doctors present and no arguments in favor of the bill were made before the committee. Further hearings of the committee will be held in order to allow the evidence in favor of the bill to be introduced.

RENNARD INQUEST—"Death from a gunshot wound self-inflicted" was the verdict of the coroner's jury yesterday concluding the inquest into the death of Joseph R. Rennard, who committed suicide by shooting himself through the head some time Sunday. J. M. Eike, a G. A. R. comrade, told of conversations he had had with Rennard, in which it seemed that he was opposed to returning to the National Soldiers' Home at Sactelo, Cal. CLAIRVOYANT GETS WOMAN'S SAVINGS

Aged Wife of Globe Miner Victim of Mean Swindler.

(Special to Republican) GLOBE, Feb. 17.—A deputy sheriff is searching for "Professor" Clem, a clairvoyant tonight to arrest him for swindling aged Mrs. Crowley, the wife of a poor miner out of five hundred dollars, her life's savings. A reward of \$75 is offered by the sheriff's office.

According to the woman's story Clem told her he would show her where she could find a rich vein of gold and asked \$500. He demanded that she show him the money as evidence of good faith. She complied and he counted the money. He returned the envelope in which she thought was enclosed her savings. When she unsealed the envelope to-day it had only bits of scrap paper and five cents in money. Clem has disappeared.

Hanny's Going to the Wall

don't be alarmed, for Vic is "going to the wall" with a bunch of men armed with sledges and chisels, and he's going to take the wall out, going to remove the partition between his store and that now occupied by the Long Hardware Co. and which they will vacate soon. HANNY'S will then have twice (get that? 2 times) the present space in which to show you the goods you want, at the price you want to pay.

to last when he came here last April, but there were several thousand men who had been objecting for a long while to the long-shot, "perhaps-get-paid," "high-rent" price that used to go in Phoenix, who stepped in and were glad to patronize him, so that Vic forgot all about the six months' sentence, for after all the public is the judge and jury both. And the public has sure appreciated being asked to pay only Eastern prices for things in Phoenix. And now that Vic has been obliged to double the size of his store, and he's been here less than a year, the

steps to acquire the railroads, telegraph, and telephone lines of the United States. This bill was indefinitely postponed.

In the House.

The house passed by a vote of 20 to 12, yesterday afternoon, the bill creating a new county out of the western end of Coconino county, to be known as the county of Hunt. It was proposed twice to name the county Supai, but the motion for its adoption was discarded. It is clearly understood in the house that the bill, irrespective of the merits of it, is passed as it was last time, as a tribute to the abilities and clean fighting qualities of Thomas Maddock, the representative from Coconino who is in favor of a general county division bill leaving the divisions of the counties to the counties themselves.

The house passed the senate bill allowing the state treasurer to place certain monies from the general fund to the credit of the income tax fund to be paid back. The bill will be sent to the senate for transmission to the governor.

Among the bills indefinitely postponed were, that allowing the seizure of liquor, and that for the removal of the county roads by the members of the board of supervisors. The senate memorial relative to the Yuma bridge to the state of California and the national congress were passed.

PREPARATIONS GO ON

now in progress to be discontinued. In addition to ordering marines to Guantanamo, word was passed quietly to the military commanders of interior posts to make ready for eventualities. It is indicated, however, this is only an ordinary and proper means of precaution. In fact it was stated by a cabinet officer to-day, the administration is most anxious to prevent the spread of the

idea in Mexico that the United States is contemplating the dispatch of an army of invasion to that country. Should that idea get in currency it might precipitate the very trouble which it is desired to avoid and endanger every American life in Mexico.

When You Buy Coffee You Buy Caffeine

—and caffeine is the subtle but vicious drug in coffee that irritates the heart, impairs digestion and upsets the nerves.

Each cup contains from 1½ to 3 grains of this habit-forming, health destroying drug.

So far as known no coffee is sold today (however processed or prepared) that is free from caffeine.

If coffee is "getting" you, and if you wish to leave the headache, biliousness, indigestion and nervousness of coffee-drinking behind, the safe and easy way is to quit coffee and use
